

## Satellite Events: Biology and Paleovirology of the *Caulimoviridae* Program

	Saturday 19 August		Sunday 20 August	
08:30	Welcome of participants		<b>Session 3: Endogenous viral elements: pathogenicity, functions and insights into virus evolution</b>	<b>Keynote 3: Dr Andrew Geering, the University of Queensland, Australia</b> <i>Interpreting the 'fossil record' for the Caulimoviridae</i>  Oral presentations
09:00	<b>Session 1: Replication and host-vector-virus interactions</b>	<b>Keynote 1 : Pr. James E. Schoelz, University of Missouri, USA.</b> <i>Charting the interactome of cauliflower mosaic virus.</i>		
09:30				
10:00				
10:30				
11:00			Oral presentations & coffee break	
11:30	Lunch		<b>Session 4: Summation: highlights of meeting, gaps in knowledge, taxonomic issues</b>	Roundtable
12:00				
12:30	Lunch		Lunch	
13:00	Lunch		Lunch	
13:30	<b>Session 2: Diagnosis, epidemiology and control</b>	<b>Keynote 2: Pr Indranil Dasgupta, University of Delhi, India.</b> <i>Rice tungro bacilliform virus : ongoing impact and strategies for control.</i>	End of symposium	
14:00				
14:30			<b>Keynote 3: Dr George Ameyaw, Cocoa Research Institute, Ghana</b> <i>Advances and gaps in research on cacao swollen shoot viruses.</i>	
15:00				
15:30				
16:00	Oral presentations & coffee break			
16:30	End of day 1
